Progress Report — Week 9

Course: 814601S / 814311A | **Student:** Arslan Sultan | **Student number:** 1.2.246.562.24.35253236476 | **Email:** arslan.sultan@student.oulu.fi
Employer: Universidad Politécnica de Madrid (UPM) | **Supervisor:** Juan Garbajosa
Report return date: 3 July 2026

Reporting period

26 June 2026 – 2 July 2026

Hours worked

Date	Day	Hours	Activity summary
26 Jun 2026	Fri	8	Draft UML_CI_PERFORMANCE_ANALYSIS.md structure
29 Jun 2026	Mon	8	CI → performance impact map with paper citations
30 Jun 2026	Tue	8	Per-component impact table with weight rationale
1 Jul 2026	Wed	8	Section on where agile variables and weights come from
2 Jul 2026	Thu	8	HTML/PDF export via Chrome headless; review with supervisor
Total		**40**	

Work completed

- Wrote comprehensive `docs/UML_CI_PERFORMANCE_ANALYSIS.md` covering UML model, CI performance map, and research-paper analysis.
- Added **Agile variable(s) in testbed** and **Why this weight** columns to analysis tables.
- Documented that percentages are transparent simulation assumptions, not empirically estimated Scrum coefficients.
- Created `docs/UML_CI_PERFORMANCE_ANALYSIS.html` and exported PDF for submission and presentation use.
- Updated `PRESENTATION_REPORT.md` to align with refined terminology and new references.

Connection to learning objectives

- Demonstrated ability to connect work assignments, university studies, and employer/academic goals in written form.
- Applied research analysis and technical writing at a level suitable for thesis and conference materials.
- Managed time across writing, formatting, and export pipeline within one week.

Challenges and how they were handled

PDF generation tools (pandoc, wkhtmltopdf) were unavailable locally. I used Chrome headless `--print-to-pdf` as an alternative export method and documented the workflow.

Plan for next week (3–9 Jul 2026)

- Implement model v2.0 tooling: externalized weights in `config/weights.yaml`.
- Add preset scenarios, CSV/JSON exports, and expanded UI charts.
- Create `config_loader.py` and assumptions panel in Streamlit.
